OPPOSITION TO U. S. ENGINEERS' DAM
ACROSS CACHE CREEK AT CAPAY

Supervisor Cummins moved the adoption of the following resolution:

WHEREAS, the Corps of Engineers of the U. S. Army have made an investigation of various sites on Cache Creek in the County of Yolo, State of California, for the erection on construction of a multiple purpose dam, and

WHEREAS, they have proposed various sites including the construction of said dam at the commonly called Esparto site located near the town of Capay, County of Yolo, State of California, and

WHEREAS, construction of a dam at this location would inundate a major portion of the 10,700 acres of excellent farming land located in the Capay Valley, County of Yolo, and

WHEREAS, the same would result in removing from the tax rolls of the County of Yolo property valued between \$6,000.00.00 and \$8,000,000.00, and

WHEREAS the Capay Valley Farm Bureau Center has by resolution, a copy of which is attached hereto and marked Exhibit "A" and made a part hereof as if same had been fully set forth herein, protested the construction or erection of said dam at the proposed Esparto site, and

WHEREAS, the Western Yolo Grange No. 423 has by resolution, a copy of which is attached hereto and marked Exhibit "B" and made a part hereof as if same had been fully set forth herein, protested the construction or erection of said dam at the proposed Esparto site.

NOW, THEREFORE, BE IT RESOLVED AND ORDERED that the Corps of Engineers of the U. S. Army be requested to investigate and exhaust all possibilities of constructing a multiple purpose dam on the main stem of Cache Creek between the town of Rumsey and a point below the confluence of Bear Creek and Cache Creek in the said County of Yolo.

BE IT FURTHER RESOLVED AND ORDERED that in as much as Cache Creek is the last and only

JAN 26 1949

source of irrigation water for the farmers of Yolo County this Board of Supervisors does hereby urgently request that any bill authorizing the construction of any multiple dam on Cache Creek, County of Yolo, carry the provision that the irrigation water developed thereby be first used to supply the said County of Yolo with a full and adequate supply of irrigation water before any of such water be exported to any other area.

BE IT FURTHER RESOLVED AND ORDERED that a certified copy of this resolution be forthwith mailed by the County Clerk to the Corps of Engineers, U. S. Army, Sacramento Division.

R E S O L U T I O N

To Whom It May Concern:

WHEREAS The Capay Valley Farm Bureau Center has been apprised of the fact that the United States Army Engineers' District Office in Sacramento, California has tentatively recommended the construction of a dam at the Esparto California site and are now progressing with core drillings to determine construction date, and

WHEREAS it is known that test drillings have not been made at other prospective sites up the canyon from Rumsey, California, such as Blue Ridge, Bear Creek, Wilson Valley, etc., and,

WHEREAS a dam at Esparto, California, would cause inundation of many thousands of acres of valuable agricultural lands worth millions of dollars, and

WHEREAS the construction of a dam at any point above Rumsey, California, would cause inundation of a minimum amount of agricultural lands of much less value.

THEREFORE BE IT RESOLVED that The Capay Valley Farm Bureau Center Members go on record as opposing the Esparto, California dam site selection until the possibility of the development of all other sites above Rumsey, California, have been exhausted.

Upon such approval the Building Inspector shall issue such permit, provided all other provisions of law have been complied with. Every drawing of sketch filed under the provisions of this section shall become a part of the permanent records of the Planning Commission.

"EXHIBIT A"

December 17, 1949

Yolo County Board of Supervisors
Woodland, California.

Gentlemen:

The Corps of Engineers of the United States Army has for the past several years been making investigations on Cache Creek. These investigations covered not only the main stream of Cache Creek, but all its tributaries and had for its purpose the location of a dam and reservoir site or sites that would not only control the flood water of Cache Creek, but furnish a supplemental supply of irrigation water that could be delivered to the Yolo County Farmers at a reasonable cost.

The Corps of Engineers at a public meeting held in Woodland, November 9, 1949, distributed to all attending the meeting a data sheet entitled, "DESCRIPTIVE DATA, COSTS AND BENEFITS TENTATIVE PLAN OF IMPROVEMENT CACHE CREEK BASIN", and made a verbal report to the people of Yolo County covering their investigations.

The Yolo County Water Committee has not as yet been furnished with a copy of the transcript of the November 9th meeting, nor has it received a copy of the Engineers' report; but based upon the data sheet referred to above and to notes taken at the public hearing, we herewith make our comments and recommendations to your Board.

DAM AND RESERVOIR ON MAIN STEM OF CACHE CREEK

The Corps of Engineers investigated dam sites at Esparto, Blue Ridge, Wilson Valley, and intermediate points on the main stream of Cache Creek, but reported to the people that they could not recommend any of these projects as, in their opinion, the cost was prohibitive as their estimates show that the cost of irrigation water would be about \$10.00 per acre foot, after making allowances for such flood benefits that could be assigned to any one of these flood control dams. This conclusion reached by the Corps of Engineers is very disappointing. As you know, the only dam and reservoir that would provide complete flood protection and an adequate amount of irrigation water would be one located on the main stream of Cache Creek where it could store the surplus waters from all the principal tributaries of this stream.

The Dam site at Esparto was found to be satisfactory with plenty of suitable material available for its construction but was rejected due to its high cost and also for the further reason that it would flood the highly developed lands in Capay Valley.

Several sites were investigated in the vicinity of Wilson Valley, but here again, the costs was excessive and there is still some question about the foundation conditions; and for these reasons, was not recommended by the Corps of Engineers.

The most desirable site investigated, from the view point of Yolo County, is the one called Blue Ridge Site located about three miles below the mouth of Bear Creek. A dam built at this site would control all the water from the principal tributaries of Cache Creek as well

as the surplus water released from Clear Lake. The foundation conditions, although not fully explored, appear satisfactory, but the Corps of Engineers could not find suitable material near at hand for the construction of a dam at this point. The cost of importing large quantities of suitable materials made the cost of the construction of a dam at this site prohibitive.

It is our recommendation that the Corps of Engineers be requested to continue their investigations giving special consideration to the Blue Ridge site. The foundation should be explored to determine whether a concrete dam could be built at this site, for which suitable material is available from nearby deposits. Also, tests should be made of the local material to determine whether this material could be processed to make it suitable for the construction of an earth and rock dam.

We also recommend that the Corps of Engineers be requested to review the flood benefits that could be allocated to a flood control dam on the main stream of Cache Creek and include therein the savings on the cost of maintaining and reconstructing the Cache Creek silting basin and the debris benefits accruing to the Yolo By-Pass. We believe that the flood damage to the property adjacent to Cache Creek will increase from year to year as this property becomes more highly developed and the flood benefits that can be allocated to a flood control dam could be substantially increased.

INDIAN VALLEY RESERVOIR

The Corps of Engineers reported that foundation conditions and availability of materials would permit the construction of a dam at the Indian Valley site. They estimated that the construction of this dam would provide an average annual new irrigation yield of water amounting to 43,000 acre feet per year and that the cost of water at the reservoir side would be \$3.50 per acre foot. They reported at the public hearing that the loss of water between the reservoir and the farmer, plus the distribution costs, would make an additional cost ranging from \$2.50 to \$3.00 per acre foot; making the total cost to the framers from \$6.00 to \$6.50 per acre foot.

The water Committee believes that the construction of a dam at the Indian Valley site base on the above costs would not be economically justified at this time.

KELSEYVILLE DAM AND RESERVOIR

The Army Engineers recommended the construction of a dam on Kelsey Creek in Lake County. This dam would be for the benefit of the residents of Lake County and the only objection that Yolo County could raise to its construction would be that the water to be stored at the Kelsey Creek reservoir is water that is already covered by the Clear Lake Water Company's water rights and, except in seasons of abnormal run-off, the water stored here would reduce the available supply of water for Yolo County by a like amount. It is our recommendation that when and if this dam is built and water covered by the Clear Lake Water Company's water rights is stored at this point, that a like amount of water would be made available for the Clear Lake Water Company and Yolo County farmers from some other source.

CLEAR LAKE OULET CHANNEL

The outlet channel leading from Clear Lake has been a source of considerable controversy between Lake County and Yolo County for a great many years. Residents of Lake County secured a court order known as the Gopcevic Decree, which among other things, prevents the enlargement of this channel. Residents of Yolo County have also secured a court order known as the Bemmerly Decree which likewise prevents the enlargement of this channel. The Bemmerly Decree was secured on the theory that if the Channel was enlarged, large amounts of water would be dumped down Cache Creek and cause additional damage to lands adjacent to Cache Creek in Yolo County.

It is our opinion that this channel should be enlarged and that both the Gopcevic Decree and the Bemmerly Decree should be modified to permit this enlargement. We believe that these decrees could be so modified that all of the protection afforded by the decrees to the residents of both Counties could be retained and that great benefits would accrue to both Yolo and Lake Counties if the channel is enlarged. We therefore recommend that the necessary steps be taken to modify the above existing decrees and that the Corps of Engineers proceed with the construction of this channel.

GROUND WATER SUPPLY

The Yolo County residents interested in the pumping of underground water sometime ago requested the Corps of Engineers to investigate the possibility of increasing the ground water supply by percolating basins or by other means. At the time of the public meeting, the Army Engineers had not completed their investigations and were therefore not prepared to report on this point but advised that they would complete their studies and make a supplemental report.

It is expected that in the near future the Water Committee will be furnished a transcript of the November 9th public meeting and also, a copy of the Army Engineers' detailed report. When this transcript and report have been received, the Water Committee will make a further study of the entire matter and if additional or new information is made available, the Water Committee will make a supplemental report to your board.

Respectfully submitted.

3. Under the constitution and statutes of the State of California, all Projects are exempt from all real and personal property taxes and special assessments levied or imposed by any Taxing Body; and, with respect to any Project, so long as either (a) such Project is used for low-rent housing purposes, or (b) any contract between the Local Authority and the PHA for loans or annual contributions, or both, in connection with such Project shall remain in force and effect, or (c) any bonds issued in connection with such Project shall remain outstanding, whichever period is the longest, the County agrees that it will not levy or impose any real or personal property taxes or special assessments upon such Project or upon the Local Authority with respect thereto. During such period, the Local Authority shall make annual payments (herein called "Payments in Lieu of Taxes") in lieu of such taxes and special assessments and in payment for public services and facilities furnished for or with respect to such Project. Each such annual Payment in Lieu of Taxes shall be made after the end of the fiscal year established for such Project, and shall be in an amount equal to either (a) five per cent (5%) of the aggregate Shelter Rent charged by the Local Authority in respect to such Project during such fiscal year; or (b) the amount permitted to be paid by applicable state law in effect on the date of this Cooperation Agreement, whichever amount is the lower; provided, however, that upon failure of the Local Authority to make any such Payment in Lieu of Taxes, no lien against any Project or assets of the Local Authority shall attach.

The County shall distribute the Payments in Lieu of Taxes among the Taxing Bodies in the proportion which the real property taxes which would have been paid to each Taxing Body for such year if the Project were not exempt from taxation bears to the total real property taxes which would have been paid to each Taxing Body for such year if the Project were not exempt from taxation bears to the total real property taxes which would have been paid to all of the Taxing Bodies for such year if the Project were not exempt from taxation; provided, however, that no payment for any year shall be made to any Taxing Body (including the County) in excess of the amount of the real property taxes which would have been paid to such Taxing Body for such year if the Project were not exempt from taxation.

In the event any Project or part thereof shall be come annexed to any City, the aggregate Payments in Lieu of Taxes to be paid by the Local Authority with relation to any such Project or part thereof, as the case may be, shall be increased to an amount equal to 10 percent of the shelter rents charged in the annexed Project or part thereof, but only after suitable arrangements are made therefor by the execution of a Cooperation Agreement by the Local Authority with the City involved, and which Agreement shall contain limitations similar to those contained elsewhere in this Paragraph 3.

4. The County agrees that, subsequent to the date of initiation (as defined in the Act) of each Project and within five years after the completion thereof, or such further period as may be approved by the PHA, there has been or will be elimination (as approved by the PHA) by

demolition, condemnation, effecting closing, or compulsory repair or improvement, or unsafe or insanitary dwelling units situated in the locality or metropolitan area of the County not less in number than the number of newly constructed dwelling units provided by such Project, unless deferred by the PHA, pursuant to the Act, because of an acute shortage of decent, safe or sanitary housing available to families of low income in the locality or metropolitan area of the County; provided, that, where more than one family is living in an unsafe or insanitary dwelling unit, the elimination of such unit shall count as the elimination of units equal to the number of families accommodated therein; and provided, further, that this paragraph 4 shall not apply in the case of (a) any project developed on the site of a Slum cleared subsequent to July 15, 1949, and that the dwelling units eliminated by the clearance of the site of such Project shall not be counted as elimination for any other Project or any other low-rent housing project, or (b) any Project located in a rural non-farm area.

5. During the period commencing with the date of the acquisition of any part of the site or sites of any Project and continuing so long as either (a) such Project is used for low-rent housing purposes, or (b) any contract between the Local Authority and the PHA for loans or annual contributions, or both, with respect to such Project shall remain in force and effect, or (c) any bonds issued in connection with such Project shall remain outstanding, whichever period is the longest, the County without cost or charge to the Local Authority or the tenants of such Project (other than the Payments in Lieu of taxes) shall:

(a) furnish or cause to be furnished to the Local Authority and the tenants of such Project the public services and facilities which are at the date hereof being furnished without cost or charge to other dwellings and inhabitants in the County, including but not limited to: educational, fire, police and health protections and services; maintenance and repair of public streets, roads, alleys, and also such additional public services and facilities as may from time to time hereafter be furnished without cost or charge to other dwellings and inhabitants in the County;

(b) vacate such streets, roads, and alleys within the area of such Project as may be necessary in the development thereof, and convey without charge to the Local Authority such interest as the County may have in such vacated areas; and, insofar as it is lawfully able to do so without cost or expense to the Local Authority and/or to the County, cause to be removed from such vacated areas, insofar as it may be necessary, all public or private utility lines and equipment;

(c) insofar as the County may lawfully do so, grant such waivers of the building code of the County as are reasonable and necessary to promote economy and efficiency in the development and administration of such Project; and make such changes in any zoning of the Site and surrounding territory of such Project as are reasonable and necessary for the development and protection thereof;

(d) accept grants of easements necessary for the development of such Project; and

(e) cooperate with the Local Authority by such other lawful action or ways as the County and the Local Authority may find necessary in connection with the development and administration of such Project.

(6) In respect to any Project the County further agrees that within a reasonable time after receipt of a written request therefor from the Local Authority;

(a) it will accept the dedication of all interior streets, roads and alleys, within the area of such Project after the Local Authority, at its own expense, has completed the grading, improvement, and paving, and installation thereof in accordance with specifications acceptable to the County; and

(f) it will accept necessary dedications of land for, and will grade, improve, pave and provide sidewalks for, all streets bounding such Project or necessary to provide adequate access thereto (in consideration whereof the Local Authority shall pay to the County such amount as would be assessed against the Project site for such work as if it were privately owned);

7. If the County shall, within a reasonable time after written notice from the Authority, fail or refuse to furnish to cause to be furnished any of the services or facilities which it is obligated hereunder to furnish to cause to be furnished to the Local Authority or to any Project, then the Local Authority may proceed to obtain such services or facilities elsewhere, and deduct the cost therefor from any Payments in Lieu of taxes due or to be come due to the County in respect to any Project or any other low-rent housing projects assisted or owned by the PHA.

8. No Cooperation Agreement heretofore entered into between the County and the Local Authority shall be construed to apply to any Project covered by this Agreement.

9. So long as any contract between the Local Authority and the PHA for loans (including preliminary loans) or annual contributions, or both, with respect to any Project shall remain in force and effect, or so long as any bonds issued in connection with such Project shall remain outstanding, this Agreement shall not be abrogated, changed, or modified without the consent of the PHA. The privileges and obligations of the County hereunder shall remain in full force and effect with respect to each Project so long as the beneficial title to such Project is held by the Local Authority or some other public body or governmental agency, including the PHA, authorized by law to engage in the development or administration of low-rent housing projects. If at any time the beneficial title to, or possession of, an Project is held by such other public body or governmental agency, including the PHA, the provisions hereof shall inure to the benefit of and may be enforced by, such other public body or governmental agency, including the PHA.

IN WITNESS WHEREOF the County and the Local Authority have respectively cause this Agreement to be duly executed as of the day and year first above written.

NUMBERING OF REAL ESTATE PARCELS ON
ASSESSOR'S MAPS APPROVED

Supervisor Merkley moved the adoption of the following resolution:

RELATIVE TO THE NUMBERING OF PARCELS OF REAL ESTATE ON ASSESSORS' MAPS

BE IT RESOLVED that, when the county assessor possessed a complete and accurate map of any land situated within the county, the assessor may delineate parcels thereon for the purpose of assessing the same, as provided in Section 327 of the Revenue and Taxation Code, and shall number said parcels on said map in the manner hereinafter specified.

The complete and accurate map is deemed to be the assessor's master maps, which together with index maps, show areas of property within the county in sufficient detail to clearly identify them as to size, shape, and location with official survey maps or known survey points. The complete and accurate map herein referred to is deemed to be not only the master maps together with index maps now in the possession of the assessor but also all hereinafter coming into his possession until he has a complete and accurate map of all land within the county. Such master detail maps are to be arranged in numbered books with the maps numbered numerically starting with No. 1 in each book.

BE IT FURTHER RESOLVED that when such complete and accurate map has been parcelled and numbered as herein indicated, such map shall be known as the "Assessors Map" and such map or a copy thereof shall at all times be publicly displayed in the office of the assessor, and thereafter land may be described by reference to such map.

BE IT FURTHER RESOLVED that the assessor shall delineate and assign parcel numbers to each parcel in the manner hereinafter indicated on said map for purposes of assessment in accordance with law as to use and ownership and as to the revenue districts and taxing agencies in which the property is situated.

Even though a tract of land is in one ownership parcels of land shall not contain more than 640 acres except where a single section of land sectionized by the United States Government contains more than 640 acres. Where a tract of sectionized land contains more than 640 acres, it shall be delineated into parcels and assigned parcel numbers coextensive with sections and fractions of sections in said tract.

A. THE PARCEL NUMBER.

The parcel number shall consist of three parts as follows:

- (1) The number of the map book of the assessor's master maps of the county in which the particular master map showing the property is located.
- (2) The first two digits of the second part of the number shall represent the page number of this master map in the respective map book. The number "0" shall be used in from of map pages 1 to 9 of each book.
- The third digit of the second part shall represent the block number on the respective map page when the area is divided into blocks. When there is only one block to a map page the second number shall be the map page number as well as the block number but shall not exceed three digits.
- (3) The third part of the number shall be the number of the parcel on the map page if not in a numbered block and if in a numbered block the number of the particular parcel within the block.

In describing parcels on a map page that is not subdivided into blocks, a parcel would be described, for example, as "3-36-9", which would mean Book 3 of Assessor's Maps, Map Page 36, and Parcel 9 on that map. If the parcel is on a map page subdivided into blocks, the description would be, for example, "3-362-5", which would mean Book 3 of Assessor's Maps, Block 362 (Map Page 36, Block 2) and Parcel 5 within that block.

B. Original Numbering

The original numbering of the parcels shall be done in the following manner:

(1) the map book number and the map page number shall be the respective map book numbers and map page numbers as assigned to the map books and pages constituting said complete and accurate maps.

(2) The block numbers shall be developed by assigning No. 1 to the upper left hand block on each master map and the other block numbers assigned consecutively downward by column from left to the right. The block numbers should begin with No. 1 on each master map.

(3) In numbering the individual parcels on each master map that is not divided into blocks the numbering should be generally from left to right beginning at the upper left hand corner. If there are several distinctive areas on a map, those areas may be numbered consecutively if in the judgment of the assessor that is the most practicable.

Individual parcels within each block shall begin with No. 1 and shall be numbered consecutively as follows: (a) If a majority of the lots in any block face on streets running in a general northerly and southerly direction, the numbering shall start at the top left corner of the block and proceed down to the lower left hand corner of the block, then over to the upper right corner of the block and down to the lower right corner of the block. (b) If a majority of the lots in any block face on streets running in a general easterly and westerly direction, the numbering shall start at the top left corner of the block and proceed across to the top right corner of the block, then back to the lower left corner of the block and proceed across to the lower right corner of the block.

(4) if the arrangement of blocks or lots is such that the above system is not applicable, the assessor shall number the parcels by the system most similar, in the judgment of the assessor, to the system set forth above.

C. DIVISIONS AND COMBINATIONS.

The parcel number assigned to a particular parcel shall never be used to designate another parcel. In the event that a parcel is divided or combined with another parcel, a new parcel number or numbers next following the last used parcel number for that block or map page shall be assigned to the new parcel or parcels. Divisions and combinations of parcels need only be made each year for the preparation of the new assessment roll except that divisions shall be made immediately and new parcel numbers assigned when requested for the payment of current taxes on part of an assessment, as provided for by Chapter 3, Part 5, Division 1 of the Revenue and Taxation Code, or the partial redemption of property, as provided by Chapter 2, Part 7, division 1 of the Revenue and Taxation Code.

The new parcel or parcels shall be so delineated on the map or block with colored ink or otherwise so that an inspection will readily disclose not only the new parcels but also the old parcels. When a parcel is first divided into two or more parcels, the division including the new parcel number shall be shown in red, a second division within a parcel shown in green, and a third division shown in orange. The new parcel area shall be outlined in the respective color so that it is definitely and clearly indicated. When a parcel number is changed a single line of the color used in making the change may be drawn through the former parcel number or boundary. The parcel number and boundaries of any parcel which is not longer used for assessment purposes shall not be elected, obliterated, or made illegible.

In the event that the combinations or divisions on any block or map are so numerous that it becomes difficult to show the old and new parcels, the assessor shall prepare a new map page for that particular area and place it in the Map Book Volume immediately preceding the

old map page, and delineate thereon the existing parcels. Appropriate notation shall be made on both the old and new map page referring one to the other and indicating the date the new map page was inserted.

The master maps must be kept and maintained in such manner and in such condition that a person of ordinary intelligence can determine therefrom at any time the location of any parcel of land assessed by reference to said map in the then current fiscal year or in any prior year.

D. NOTICE TO TAX COLLECTOR AND REDEMPTION OFFICER

When parcels that are delinquent are divided or combined the assessor shall notify the Tax Collector and Redemption Officer of such division or combination.

WHEREAS, in accordance with the provisions of the United States Housing Act of 1937 (as amended by the Housing Act of 1950), the Housing Authority of the County of Yolo proposes to acquire from the Public Housing Administration the housing units located within the unincorporated area of the County of Yolo, State of California, and known as the Woodland Farm Labor Camp; and

WHEREAS, the aforementioned housing is to be operated by the said Housing Authority as a low-rent housing project in accordance with the provisions of the United States Housing Act of 1937, as amended, and the California Housing Authorities Law, as amended, for the principal purpose of housing persons engaged in agricultural work; and

WHEREAS, unsafe and insanitary inhabited dwelling accommodations exist in the County of Yolo and such conditions constitute a menace to the health, safety, morals and welfare of the inhabitants of the County; and

WHEREAS, pursuant to Section 8(b) of the California Housing Authorities Law, as amended, a low-rent housing project may not be developed, constructed or owned by the Housing Authority of the County of Yolo until the governing body of the County has by resolution approved such project; and

WHEREAS, it is necessary that the County and the Housing Authority enter into an agreement providing for payments in lieu of taxes and for local cooperation in the operation of such project.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE COUNTY OF YOLO:

1. That, pursuant to Section 8(b) of the California Housing Authorities Law, as amended, the Board of Supervisors of the County of Yolo does hereby approve the acquisition, ownership and operation by the Housing Authority of the County of Yolo of the low-rent housing project consisting of 172 units of housing located in the vicinity of Woodland, California, and now known as the Woodland Farm Labor Camp.

2. That, the County of Yolo shall enter into a Cooperation Agreement with the Housing Authority of the County of Yolo substantially in the form hereinafter set forth and which Cooperation Agreement is hereby approved.

COOPERATION AGREEMENT

This Agreement entered into this ____ day of _____, 1950__, by and between the HOUSING AUTHORITY OF THE COUNTY OF YOLO (herein called the "Local Authority") and the YOLO COUNTY BOARD OF SUPERVISORS (herein called the "County"), WITNESSETH:

WHEREAS, pursuant to Section 12(f) of the United States Housing Act of 1937, as amended by the Housing Act of 1950 (public Law 475, 81st Congress), certain labor supply centers, labor homes and labor camps (and facilities held in connection therewith), which were formerly administered by the Secretary of Agriculture, were transferred to the Public Housing Administration (herein called the "PHA") for use as low-rent housing projects; and

WHEREAS, the PHA desires to dispose of these projects to qualified local public agencies and the Local Authority is authorized by law to acquire and operate low-rent housing projects within its area of operation and proposes to acquire and operate such of the aforementioned projects as are located within the limits of the County; and

WHEREAS, the County is desirous of assisting and cooperating with the Local Authority in such undertakings;

NOW, THEREFORE, in consideration of the mutual covenants hereinafter set forth, the parties hereto do agree as follows:

1. Whenever used in this Agreement:

(a) The term "Project" shall mean any labor supply center, labor home or farm labor camp (and facilities held in connection therewith), transferred to the PHA pursuant to Section 12 (f) of the United States Housing Act of 1937, as amended by the Housing Act of 1950 (Public Law 475, 81st Congress) for use as low-rent housing, which is located within the limits of the County and which has been or is hereafter acquired by the Local Authority by sale or lease from the PHA.

(b) The term "Taxing Body" shall mean the State or any political subdivision or taxing unit thereof in which a Project is situated and which would have authority to assess or levy real or personal property taxes or to certify such taxes to a taxing body or public officer to be levied for its use and benefit with respect to a Project if it were not exempt from taxation.

(c) The term "Shelter Rent" shall mean the total of all charges to all tenants of a Project for dwelling rents and non-dwelling rents (excluding all other income of such Project), less the cost to the Local Authority of all dwelling and non-dwelling utilities.

2. The Local Authority shall endeavor to secure a contract of sale or lease from the PHA for the acquisition and operation of one or more Projects for low-rent use.

3. (a) Under the constitution and statutes of the State of California, all Projects are exempt from all real and personal property taxes and special assessments levied or imposed by any Taxing Body. With respect to any Project, so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract of sale or lease between the Local Authority and the PHA, in connection with such Project remains in force and effect, or (iii) any monies due to the PHA in connection with such Project remain unpaid, whichever period is the longest, the County agrees that it will not levy or impose any real or personal property taxes or special assessments upon such Project or upon the Local Authority with respect thereto. During such period, the Local Authority shall make annual payments (herein called "Payments in Lieu of Taxes") in lieu of such taxes and special assessments and in payment for the public services and facilities furnished from time to time without other cost or charge for or with respect to such Project.

(b) Each such annual Payment in Lieu of Taxes shall be made after the end of the fiscal year established for such Project, and shall be in an amount equal to either (i) five per cent

(5%) of the aggregate Shelter Rent charged by the Local Authority in respect to such Project during such fiscal year, or (ii) the amount permitted to be paid by applicable state law in effect on the date such payment is made, whichever amount is the lower.

(c) The County shall distribute the Payments in Lieu of Taxes provided for in paragraph 3(b) above among the Taxing Bodies in the proportion which the real property taxes which would have been paid to each Taxing Body for such year if the Project were not exempt from taxation bears to the total real property taxes which would have been paid to all of the Taxing Bodies for such year if the Project were not exempt from taxation; Provided, however, That no payment for any year shall be made to any Taxing Body in excess of the amount of the real property taxes which would have been paid to such Taxing Body for such year if the Project were not exempt from taxation.

(d) Upon failure of the Local Authority to make any Payment in Lieu of Taxes, no lien against any Project or assets of the Local Authority shall attach, nor shall any interest or penalties accrue to attach on account thereof.

4. During the period commencing with the date of the acquisition of any Project and continuing so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract of sale or lease between the Local Authority and the PHA, in connection with with Project remain unpaid, whichever period is the longest, the County without cost or charge to the Local Authority or the tenants of such Project (other than the Payments in Lieu of Taxes) shall:

(a) Furnish or cause to be furnished to the Local Authority and the tenants of such Project public services and facilities of the same character and to the same extent as are furnished from time to time without cost or charge to other dwellings and inhabitants in the County;

(b) Insofar as the County may lawfully do so, (i) grant such deviations from the building code of the County as are reasonable and necessary to promote economy and efficiency in the administration of such Project, and at the same time safeguard health and safety, and (ii) make such changes in any zoning of the site and surrounding territory of such Project as are reasonable and necessary for the protection of such Project and the surrounding territory;

(c) Accept grants of easements necessary for the administration of such Project; and

(d) Cooperate with the Local Authority by such other lawful action or ways as the County and the Local Authority may find necessary in connection with the administration of such Project.

5. In respect to any Project the County further agrees that within a reasonable time after receipt of a written request therefor from the Local Authority it will accept the dedication of all interior streets, roads, and alleys within the area of such Project.

6. If by reason of the County's failure or refusal to furnish or cause to be furnished any public services or facilities which it has agreed hereunder to furnish or cause to be furnished to the Local Authority or to the tenants of any Project, the Local Authority incurs any expense to obtain such services or facilities then the Local Authority may deduct the amount of such expense from any Payments in Lieu of Taxes due or to become due to the County in respect to any Project or any other low-rent housing projects owned or operated by the Local Authority.

7. No Cooperation Agreement heretofore entered into between the County and the Local Authority shall be construed to apply to any Project covered by this Agreement.

8. So long as any contract of sale or lease between the Local Authority and the PHA, in connection with any Project remains in force and effect, or so long as any monies due to the PHA in connection with any Project remain unpaid, this Agreement shall not be abrogated, changed, or modified without the consent of the PHA. The privileges and obligations of the County hereunder shall remain in full force and effect with respect to each Project so long as the beneficial title to such Project is held by the Local Authority or by any other public body or governmental agency, including the PHA, authorized by law to engage in the administration of low-rent housing projects. If at any time the beneficial title to, or possession of,

any Project is held by such other public body or governmental agency, including the PHA, the provisions hereof shall inure to the benefit of and may be enforced by, such other public body or governmental agency, including the PHA.

IN WITNESS WHEREOF the County and the Local Authority have respectively signed this Agreement and caused their seals to be affixed and attested as of the day and year first above written.

COOPERATION AGREEMENT

This Agreement entered into this ____ day of _____, 195__, by and between the Housing Authority of the County of Yolo (herein called the "Local Authority") and the County of Yolo (herein called the "County"), witnesseth:

In consideration of the mutual covenants hereinafter set forth, the parties hereto do agree as follows:

1. Whenever used in this Agreement:

(a) The term "Project" shall mean any low-rent housing hereafter developed as an entity by the Local Authority with financial assistance of the Public Housing Administration (herein called the "PHA") aggregating approximately 220 dwelling units located in the unincorporated area of the County at or near the following localities:

approximately 30 units at Esparto
approximately 20 units at Yolo
approximately 20 units at Knights Landing
approximately 150 units at Bryte, Broderick Area

excluding, however, any low-rent housing project covered by the Cooperation Agreement entered into as of May 18, 1950, between the Local Authority and the County.

(b) The term "Taxing Body" shall mean the State or any political subdivision or taxing unit thereof in which a Project is situated and which would have authority to assess or levy real or personal property taxes or to certify such taxes to a taxing body or public officer to be levied for its use and benefit with respect to a Project if it were not exempt from taxation.

(c) The term "Shelter Rent" shall mean the total of all charges to all tenants of a Project for dwelling rents and non-dwelling rents (excluding all other income of such Project), less the cost to the Local Authority of all dwelling and non-dwelling utilities.

(d) The term "Slum" shall mean any area where dwellings predominate which, by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

2. The Local Authority shall endeavor to secure a contract or contracts with the PHA for loans and annual contributions, and shall endeavor to develop and administer one or more Projects. The obligations of the parties hereto shall apply only to Projects aggregating not more than 220 units of low-rent housing. The Project or Projects shall be located with the unincorporated area of the County.

3. (a) Under the constitution and statutes of the State of California, all Projects are exempt from all real and personal property taxes and special assessments levied or imposed by any Taxing Body. With respect to any Project, so long as either (i) such Project is owned by a public body of governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the PHA for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the PHA in connection with such Project remain unpaid, whichever period is the longest, the County agrees that it will not levy or impose any real or personal property taxes or special assessments upon such Project or upon the Local Authority with respect thereto. During such period, the Local Authority shall make annual payments (herein called "Payments in Lieu of Taxes") in lieu of such taxes and special assessments and in payment for the public services and facilities furnished from time to time without other cost or charge for or with respect to such Project.

(b) Each such annual Payment in Lieu of Taxes shall be made after the end of the fiscal year established for such Project, and shall be in an amount equal either (i) five percent (5%) of the aggregate Shelter Rent charged by the Local Authority in respect to such Project during such fiscal year, or (ii) the amount permitted to be paid by applicable state law in effect on the date such payment is made, whichever amount is the lower.

(c) The County shall distribute the Payments in Lieu of Taxes among the Taxing Bodies in the proportion which the real property taxes which would have been paid to each Taxing Body for such year if the Project were not exempt from taxation bears to the total real property taxes which would have been paid to all of the Taxing Bodies for such year if the Project were not exempt from taxation; Provided, however, That no payment for any year shall be made to any Taxing Body in excess of the amount of the real property taxes which would have been paid to such Taxing Body for such year if the Project were not exempt from taxation.

(d) Upon failure of the Local Authority to make any Payment in Lieu of Taxes, no lien against any Project or assets of the Local Authority shall attach, nor shall any interest or penalties accrue or attach on account thereof.

4. The County agrees that, subsequent to the date of Initiation (as defined in the United States Housing Act of 1937, as amended) of each Project and within five years after the completion thereof, or such further period as may be approved by the PHA, and in addition to the number of unsafe or insanitary dwelling units which the County is obligated to eliminate as a part of the low-rent housing projects heretofore undertaken by the Local Authority and identified as Projects Nos. CAL-44-1 and CAL-44-2, there has been or will be elimination (as approved by the PHA) by demolition, condemnation, effective closing, or compulsory repair or improvement, of unsafe or insanitary dwelling units situated in the locality or metropolitan area in which such Project is located, substantially equal in number to the number of newly constructed dwelling units provided by such Project; Provided, That, where more than one family is living in an unsafe or insanitary dwelling unit, the elimination of such unit shall count as the elimination of units equal to the number of families accommodated therein; and Provided, further, That this paragraph 4 shall not apply in the case of (i) any Project developed on the site of a Slum cleared subsequent to July 15, 1949, and that the dwelling units eliminated by the clearance of the site of such Project shall not be counted as elimination for any other Project or any other low-rent housing project, or (ii) any Project located in a rural non-farm area.

5. During the period commencing with the date of the acquisition of any part of the site or sites or any Project and continuing so long as either (i) such Project is owned by a public

body or governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the PHA for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project remain unpaid, whichever period is the longest, the County without cost or charge to the Local Authority or the tenants of such Project (other than the Payments in Lieu of Taxes) shall:

(a) Furnish or cause to be furnished to the Local Authority and the tenants of such Project public services and facilities of the same character and to the same extent as are furnished from time to time without cost or charge to other dwellings and inhabitants in the County;

(b) Vacate such streets, roads, and alleys within the area of such Project as may be necessary in the development thereof, and convey without charge to the Local Authority such interest as the County may have in such vacated areas; and, insofar as it is lawfully able to do so without cost or expense to the Local Authority or to the County, cause to be removed from such vacated areas, insofar as it may be necessary, all public or private utility lines and equipment;

(c) Insofar as the County may lawfully do so, (i) grant such deviations from the building code of the County as are reasonable and necessary to promote economy and efficiency in the development and administration of such Project, and at the same time safeguard health and safety, and (ii) make such changes in any zoning of the site and surrounding territory of such Project as are reasonable and necessary for the development and protection of such Project and the surrounding territory;

(d) Accept grants of easements necessary for the development of such Project; and

(e) Cooperate with the Local Authority by such other lawful action or ways as the County and the Local Authority may find necessary in connection with the development and administration of such Project.

6. In respect to any Project the County further agrees that within a reasonable time after receipt of a written request therefor from the Local Authority:

(a) It will accept the dedication of all interior streets, roads, and alleys within the area of such Project, after the Local Authority, at its own expense, has completed the grading, improvement, paving and installation thereof in accordance with specifications acceptable to the County;

(b) It will accept necessary dedications of land for, and will grade, improve, pave, and provide sidewalks for, all streets bounding such Project or necessary to provide adequate access thereto (in consideration whereof the Local Authority shall pay to the County such amount as would be assessed against the Project site for such work if such site were privately owned).

7. If by reason of the County's failure or refusal to furnish or cause to be furnished any public services or facilities which it has agreed hereunder to furnish or to cause to be furnished to the Local Authority or to the tenants of any Project, the Local Authority incurs any expense to obtain such services or facilities then the Local Authority may deduct the amount of such expense from any Payments in Lieu of Taxes due or to become due to the County in respect to any project or any other low-rent housing projects owned or operated by the Local Authority.

8. No Cooperation Agreement heretofore entered into between the County and the Local Authority shall be construed to apply to any Project covered by this Agreement.

9. So long as any contract between the Local Authority and the PHA for loans (including preliminary loans) or annual contributions, or both, in connection with any Project remains in force and effect, or so long as any bonds issued in connection with any Project or any monies due to the PHA in connection with any Project remain unpaid, this Agreement shall not be abrogated, changed, or modified without the consent of the PHA. The privileges and obligations

of the County hereunder shall remain in full force and effect with respect to each Project so long as the beneficial title to such Project is held by the Local Authority or by any other public body or governmental agency, including the PHA, authorized by law to engage in the development or administration of low-rent housing projects. If at any time the beneficial title to, or possession of, any Project is held by such other public body or governmental agency, including the PHA, the provisions hereof shall inure to the benefit of and may be enforced by, such other public body or governmental agency, including the PHA.

IN WITNESS WHEREOF the County and the Local Authority have respectively signed this Agreement and caused their seals to be affixed and attested as of the day and year first above written.

The National Security Resources Board of the Federal Government has recently published its plan for the civil defense of the country. The State of California, acting in accordance with the Federal plan, has enacted and made immediately effective the "Civil Defense Act of 1950." Both the Congress and the Legislature have adopted comprehensive civil defense and disaster laws. Both Federal and State plans contemplate immediate adoption of such local legislation as is necessary to put into operation a coordinance and effect civil defense and disaster program so that each citizen and each community will be ready in the event of a disaster to afford as complete protection as is possible to life and property. In order that the

ordinances of this county relating to civil defense and disaster may be brought into conformity with the Federal and State plans at the earliest possible date, it is necessary that this ordinance take effect immediately.

SEC. 12. Severability. If any provision of this ordinance or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the ordinance which can be given effect without the invalid provision or a plication, and to this end the provisions of this ordinance are declared to be severable.

That on the 30th day of January, 1951, said governing board deemed it advisable, and by its resolution and order duly and regularly passed and adopted, and entered on its minutes, on said day, did resolve and order, that an election be called and held on the 2nd day of March, 1951, in said school district, to submit thereat to the electors of said district the question whether bonds of said district shall be issued and sold in the amount of Thirty Eight Thousand dollars, to run not exceeding 27 years, and to bear interest at a rate not exceeding five per cent per annum payable annually for the first year the bonds have to run and semiannually thereafter, for the purpose of raising money for the following purposes:
